(*f*) To draw and submit to Government before the end of March in each year an annual report upon the working of the entire scheme throughout the State.

IV. The following principles shall be adopted tentatively for a period of two years for the allotment of scholarships:—

1. The total number of scholarships allotted to the different grades as per Appendix IV shall be first divided among the different communities in proportion to their total population in the State. The distribution made according to this rule is shown in Appendix V.

2. Small communities numbering less than 4,000 each shall be grouped so as to bring their total to about 4,000 and each such group shall be allotted one scholarship. The names of communities whose population in the State is less than 4,000 and the number of scholarships allotted to the group of such minor communities in each grade are also shown in Appendix V.

3. The scholarships allotted to each community as stated above shall be sub-divided among the several districts and taluks on the basis of the total attendance of the number of pupils of that community in the respective grades of education in the previous year in each unit area. A table showing the allotment made for the year 1920-21 according to this calculation is given in Appendix III.

Note 1.—It will be seen that the Depressed class Scholarships are allotted only by districts. The District Committees are requested to allot these scholarships to the several taluks in the district according to the need of each district.

Note 2.—The Depressed class Scholarships shall be first given to each of the Depressed communities up to the allotted amount and if such allotment is not enough they shall be awarded Backward class Scholarships allotted to them in Appendix III and the applications of Backward class pupils have to be considered only after the needs of the Depressed classes have been satisfied.

V. The following principles shall be adopted for a period of two years for re-allotting the scholarships:—

1. If any scholarships remain unutilised in any grade in any district they shall be first made available to pupils of the same grade and of the same community in the other districts in which the allotments fall short of the number required, the distribution being made proportionately to the needs of each district.

2. If after such re-allotment of the scholarships of one grade, any remain unutilised, they shall be granted to pupils of the same community in other grades in the district to which they were originally allotted, each lower grade being taken after the requirements of the one immediately higher are satisfied and the distribution being confined to that one district only.

3. If any scholarships should still remain unutilised the amount shall be given for supply of books, slates and other school requisites to the poor pupils of the same community.

VI. All the students to whom Backward class Scholarships will be awarded should be considered as free students and the fees collected from them till the date of award should be drawn on refund bills from the treasury and refunded to the boys. These free studentships shall be in addition to the 20 per cent usually allowed in all Government and aided institutions.

N. B.—These scholarships are tenable only to boys, and none but regular students in any institution in the State and Mysoreans by birth or domicile are eligible.
